1993

National Hog Farmer

Index

Listings compiled by Lynda Lenz, Editorial Assistant

ANIMAL HEALTH

Antiserums: When Vaccines Aren't Enough (1/93, p. 60)
Apathy Threatens PRV Eradication (2/93, p. 8)
Buying A Truck Can Limit PRV Risk (6/93, p. 20)
Cleanup Plan Set In 83% Of PRV Herds (9/93, p. 38)
Confinement Units At Greater Risk For PRV (3/93, p. 61)
Cost Vs. Benefit Factors Of MEW And MMEW (11/93, p. 36)
Don't Overlook Costly Grow-Finish Diseases (6/93, p. 33)
Downer Sows Are Man-Made (2/93, p. 52)
Haemophilus Now Called Actinobacillus Pleuropneumonia (9/93, p. 62)
Haemophilus Parasuis Is Deadly To High-Health Pigs (6/93, p. 44)
Health Improves With 2- Or Multiple-Site Production (10/93, p. 69)
Herd Outsmarts Dysentery W/Elbow Grease, Medication (1/93, p. 18)
How To Work Your Way Out Of A Sulfamethazine Crisis (4/93, p. 53)
How To Prevent Mastitis (1/93, p. 56)
I Saw Dead Hogs - And Woke Up In The Hospital! (2/93, p. 12)
Immunizing Against Fat (11/93, p. 48)
Interrupted Feeding May Be The Real Ulcer Cause (4/93, p. 41)
Is It Time To Wipe Out Swine Dysentery? (1/93, p. 14)
Life After Repopulation (Spring '93 BP, p. 40)
Look At 'Poor-Doers' To Improve Overall Herd Health (6/93, p. 24)
Many Sow Herds Are Positive For PRRS (5/93, p. 64)
Measuring Biosecurity A Wise Investment (11/93, p. 40)
Mixed-Source Pigs Bring Different Viruses, Bacteria (12/93, p. 14)
Modified-Live Vaccine Reduces PRV Shedding (9/93, p. 39)
New Approach For Fighting Scours (3/93, p. 61)
On-Site Eradication Tested (10/93, p. 33)
On-Site MEW: A New Way To Hold Down Disease (2/93, p. 22)
One Answer To Building Odors, Gases (1/93, p. 46)
Partial Depopulation Keys PRRS Cleanup (10/93, p. 32)
Pork Quality Assurance A Necessity (8/93, p. 14)
Preservatives Rated For Effect On Mold Growth (7/93, p. 46)
Proper Lactation Feed Critical To Sows Performance (10/93, p. 38)
Protect Pigs Through Colostrum With Vitamin E (5/93, p. 28)
PRRS Not Just Another Disease (10/93, p. 34)
PRRS Retains Its Mystery (5/93, p. 16)
PRRS Virus Common, Boars Can Spread It (12/93, p. 48)
PRV History In The Making (5/93, p. 30)
PRV's Interaction With Other Diseases (7/93, p. 45)
Pump Pits Safely (3/93, p. 46)
Put Your Plan To Work (Spring '93 BP, p. 32)
Quick Action Isolates, Eliminates Dysentery (1/93, p. 20)
Revitalize Your Herd Without Repopulation (Spring '93 BP, p. 18)
Salmonella Near Top Of Swine Disease List (6/93, p. 46)
Semen Of Infected Boars Can Carry PRRS (8/94, p. 49)
Shelf Life Of Drugs (1/93, p. 13)
Slaughter Checks, Vaccination Get Health In Control (11/93, p. 64)
Strategies For Battling TGE (3/93, p. 32)
Swine Dysentery Probe Promising Cleanup Tool (12/93, p. 48)
Swine Dysentery Threat Shrinks (6/93, p. 20)
The Debate Over MEW Diets (5/93, p. 60)
USDA Defends Food Safety Reforms, Outlines Changes (11/93, p. 20)
USDA To Give School Lunches A Fresh Start (10/93, p. 7)
Use MMEW To Improve Herd Health, Save Genetics (4/93, p. 70)
Vaccinating Pigs Can't Always Stop Erysipelas (8/93, p. 43)
Vaccine Protection For Salmonella Threat (12/93, p. 50)
Veterinarian Counters PRV Eradication Skeptics (5/93, p. 36)
We're Fighting Mycoplasma In Nursery Pigs (8/93, p. 61)
When Does MMEW Pay? (5/93, p. 56)

BUILDING

A Finishing Building For Warm Climates (8/93, p. 61)
Air Leaks: (11/93, p. 15)
Before You Build: Tested Ideas For Finishers (11/93, p. 12)
Ceramic Heaters Beat Out Heat Lamps (12/93, p. 18)
Chimney Sweeps Out Gases (6/93, p. 34)
Crowding Pigs Pays - If It's Managed Properly (11/93, p. 62)
Determining A Fair Lease Rate (9/93, p. 36)
Handle With Care (11/93, p. 58)
How Do You Remodel For Manure Removal? (11/93, p. 43)
One Answer To Building Odors, Gases (1/93, p. 46)
Options To Build (12/93, p. 54)
Out With The Bad (11/93, p. 18)
Plans For Small Breeding Facility (11/93, p. 42)
Plans To Build Hot Nursery (11/93, p. 43)
Questions Feasibility Of Modifying Barn (11/93, p. 42)
Remodeling Corn Crib (9/93, p. 30)
Semen Storage (11/93, p. 85)
Side-Stepping Crates (4/93, p. 26)
Sow, Gilt Performance In Tethers Adequate (6/93, p. 40)
Stepping Stones Solve Slick Breeding-Floor Problem (9/93, p. 28)
Wants An Inexpensive Farrowing-Nursery Unit (10/93, p. 30)
What Type Finishing Unit Best In Missouri? (12/93, p. 52)

HUMAN HEALTH

Pork Quality Assurance A Necessity (8/93, p. 14)
Pump Pits Safely (3/93, p. 46)
USDA Defends Food Safety Reforms (11/93, p. 20)
USDA To Give School Lunches A Fresh Start (10/93, p. 7)

IMPORT/EXPORT

Free Trade Agreement Not A Sure Thing (8/93, p. 10)
Trade Props Up Pork Prices (2/93, p. 32)

MANAGEMENT

A Promise For Independent Producers (3/93, p. 26)
Are High Cull Rates Economically Justified? (11/93, p. 44)
Battle Zone (3/93, p. 10)
Business Form Mixes Corporate, Partnership Rules (10/93, p. 46)
Ceramic Heaters Beat Out Heat Lamps (12/93, p. 18)
Cost Of Boar Rental (12/94, p. 54)
Cost Vs. Benefit Factors Of MEW And MMEW. (11/93, p. 36)
Do Zoning Laws Help Or Hinder? (3/93, p. 20)
Downer Sows Are Man-Made (2/93, p. 52)
Early Weaning Strategies Make Sow Productivity Soar (7/93, p. 18)
Efficient Producers Have Edge In Securing Loans (11/93, p. 34)
Extruded Soybeans Vs. Soybean Meal (12/93, p. 52)
Focus On Improving Your Management (4/93, p. 10)
Handle With Care (11/93, p. 58)
How Do You Keep Sows, Gilts From Savaging Pigs? (10/93, p. 30)
Improving Your Odds Of Success With AI (8/93, p. 44)
Increased Farrowing Allows Better Marketing (12/93, p. 55)
Life After Repopulation (Spring '93 BP, p. 40)
Low PQA Interest Frustrates Producer (11/93, p. 11)
Lysine Levels Should Reflect Cost (12/93, p. 36)
Management Changes That Reap The Most Profit (3/93, p. 36)
Managing European Genetic Lines (2/94, p. 44)
Measuring Biosecurity A Wise Investment (11/93, p. 40)
Modeling: Trial And Error On The Computer (2/93, p. 24)
Moving, Mixing Finishers Costs Money (12/93, p. 21)
New Kill Sheets Help Draw A Bead On Lean (9/93, p. 44)
No-Frills Finisher Adapted To The Midwest (10/93, p. 20)
Ozark Feeder Pigs: A New Ballgame For Survivors (2/93, p. 46)
Politics Vs. The Competition (2/93, p. 11)
Pooled Selling Starts With Coordinated Genetics (6/93, p. 42)
Preparing To Meet Thy Banker (11/93, p. 32)
Put Your Plan To Work (Spring '93 BP, p. 32)
Should You Repopulate? (Spring '93 BP, p. 6)
Size Does Not Determine Profitability (11/93, p. 50)

Small Savings Add Up To A Big Advantage (8/93, p. 13)
Something Old, Something New (11/93, p. 52)
Staying Afloat Financially! (2/93, p. 14)
Take Control Of Your Business (5/93, p. 44)
Thinking About Putting Sows Outdoors? (9/93, p. 56)
Training Boars For AI (9/93, p. 17)
Turn Your Gilts Into Nurse Sows (4/93, p. 36)
Using Trusts In Your Estate Plan (10/93, p. 50)
Want To Expand? Your Feed Company May Help (10/93, p. 24)
Ways To Keep Sows Eating, Milking During Hot Weather (3/94, p. 34)
What It Takes To Get A Loan (10/93, p. 44)
What's A Fair Contract Rate For Finishing? (9/93, p. 35)
What's A Fair Lease Rate? (10/93, p. 31)
When Does MMEW Pay? (5/93, p. 56)
Your Lender's Viewpoint (Spring '93 BP, p. 26)

MARKETING

A Promise For Independent Producers (3/93, p. 26)
Be Careful With Stress Gene (11/93, p. 8)
Breeding Herd Down 2% (7/93, p. 27)
By The Year 2000 More Pigs From Fewer Sows (1/93, p. 22)
Focus On Improving Your Management (4/93, p. 10)
Forming A Lean Gain Strategy? (3/93, p. 42)
Get Rid Of A Horse-And-Buggy Hog Marketing System (1/93, p. 8)
Product Quality Is Driving Integration (5/93, p. 13)
Quest For Lean Increases Variation (4/93, p. 53)
Rotational Crossing Needs To End! (5/93, p. 22)
Signing On With A Packer (4/93, p. 48)
Split-Sex Marketing Tricks (4/93, p. 57)
USDA Report Overestimated (4/93, p. 52)
USDA Report Says Hog Count Is Still Climbing (1/93, p. 32)
USDA Revises Pig Numbers (10/93, p. 28)
When Selli.ɟ Direct Is Your Best Choice (5/93, p. 39)
Who's Dropping Out Of The Industry? (7/93, p. 6)

MEAT

Low PQA Interest Frustrates Producer (11/93, p. 11)
New Kill Sheets Help Draw A Bead On Lean (9/93, p. 44)
Pork Quality Assurance A Necessity (8/93, p. 14)
Resting, Trimming Impacts Pork Quality (12/93, p. 17)
USDA Mandates Meat Labeling (9/93, p. 23)

MISCELLANEOUS

1992 National Hog Farmer Index (1/93, p. 89)
20 Top Inventions From The World Pork Expo (8/93, p. 27)
'93 Non-Patented Inventions Contest - The Winners! (7/93, p. 28)
Companies Aren't Interested In Fooling You (12/93, p. 9)
Glenn Grimes - 1993 Service Awards (3/93, p. 40)
Identifying The Ideal Truckload (7/93, p. 32)
Investment Report (12/93, p. 10)
Iowa Feeder Pig Dealer Charged With Fraud (11/93, p. 67)
Jack Rundquist - 1993 Service Awards (3/93, p. 38)
Karen McMahon Named Managing Editor Of NHF (10/93, p. 6)
Leading Edge Swine Research (12/93, p. 16)
Miller Named Editor Of National Hog Farmer (9/93, p. 11)
NPPC Funds Research Projects (12/93, p. 10)
Targeting Lean Tops Publication Contest (9/93, p. 11)
Thanks for 14 exciting years... (9/93, p. 16)
The Chance To Talk Hogs Was Very Appealing To Me (10/93, p. 10)
World Pork Expo Preview (5/93, p. 48)
You Could Win $1,000!! (1/93, p. 42)
You Could Win $1,000!! (3/93, p. 31)
You Could Win $1,000 (2/93, p. 38)

NUTRITION

An Alternative To Copper Sulfate (2/93, p. 65)
Beware The 1992 Corn Crop (1/93, p. 26)
Choice feeding has potential (8/93, p. 18)
Chromium May Be Easy Way To Improve Carcass Lean (6/93, p. 40)
Compounds Lower Cholesterol In Pigs (12/93, p. 26)
Extra Lysine Won't Solve Overcrowding (9/93, p. 75)
Extruded Soybeans Vs. Soybean Meal (12/93, p. 52)
Feeding After Breeding Vs. Embryo Survival (2/93, p. 65)
Feeding Prolific Sows (9/93, p. 30)
Feeding High Copper Doesn't Hurt Sow Output (5/93, p. 54)
Feeding Lower Quality Grains (11/93, p. 60)
Feeding Pigs By Pipeline (10/93, p. 52)
Finishers Overeat; Growers Don't (11/93, p. 48)
Finishing Performance Compared Over 30 Years (5/93, p. 63)
High Lysine Diets Help Productive Sows (12/93, p. 24)
Ideal Protein No Help In Lactation (5/93, p. 55)
Illinois Researchers Develop Ideal Protein (12/93, p. 31)
Interrupted Feeding May Be The Real Ulcer Cause (4/93, p. 41)
Keep Sows Eating And Milking Well During Hog Weather (3/93, p. 34)
Letting Pigs Mix Their Own Diets May Not Pay (3/93, p. 61)
Lysine To Digestible Energy Ratio Set (12/94, p. 24)
Lysine Levels Should Reflect Cost (12/93, p. 36)
Measuring High-Lean-Gain Genotype Advantages (1/93, p. 21)
Mineral Reduces PSE In Canadian Hogs (11/93, p. 48)
Mold Inhibitor Merits (5/93, p. 15)
More Methionine Boosts Starter Pigs (12/93, p. 32)
NPPC Studies Selenium Issue (11/93, p. 40)
Phytase Reduces Need For Phosphorus (12/93, p. 42)
Preservatives Rated For Effect On Mold Growth (7/93, p. 46)
Proper Lactation Feed Critical To Sow's Performance (10/93, p. 38)
Research Differs As To Ideal Particle Size (10/93, p. 42)
Research Checks Starter Feeds (12/93, p. 44)
Riboflavin-Rich Diets Raise Farrowing Rate (7/93, p. 46)
Sow Feeding Basics (11/93, p. 11)
The Growing Pollution Problem (11/93, p. 38)
The Debate Over MEW Diets (5/93, p. 60)
Vitamin E Improves Sow Productivity (12/93, p. 34)
Vitamin A May Increase Pig Births (12/93, p. 36)
What's Soy Oil Worth? (5/93, p. 69)
Where To Go For Advice (10/93, p. 54)

ORGANIZATIONS

12 Certified To Scan (8/93, p. 22)
Corporate Hog Producer Among New NPPC Officers (4/93, p. 14)
Delegates Reject Limits On Packers Owning Hogs (4/93, p. 18)
Espy To Name Five To Pork Board (4/93, p. 24)
Investment Report (12/93, p. 10)
Networking Seminar Details Pork Production Alliances (11/93, p. 11)
New AI Video Available (6/93, p. 32)
NPPC Studies Selenium Issue (11/93, p. 40)
NPPC Funds Research Projects (12/93, p. 10)
Pete's Is Restaurant Of The Year (10/93, p. 15)
Pork Board Sets $40 Million Budget (12/93, p. 11)
Pork Checkoff Above The Fray (6/93, p. 18)
Push Seedstock Suppliers To Join Genetic Test (4/93, p. 22)
Quality Audit Looks For Pork Industry Glitches (4/93, p. 11)
Seminar To Provide The 'How-To's' Of Networking (10/93, p. 15)
Three Figures Needed On Every Carcass (4/93, p. 24)
USDA Mandates Meat Labeling (9/93, p. 23)
USDA To Give School Lunches A Fresh Start (10/93, p. 6)

PROMOTIONS

97%-Fat-Free Pork: Can You Deliver The Hogs? (6/93, p. 10)
Pork Checkoff Above The Fray (6/93, p. 18)
Producers Get Bigger Share Of Pork Dollar (6/93, p. 51)
Resting, Trimming Impacts Pork Quality (12/93, p. 17)
Several New, Leaner Products Possible (6/93, p. 14)
Survey Shows Eating Meat Is Back In Style (6/93, p. 17)

REGULATIONS

Apathy Threatens PRV Eradication (2/93, p. 8)
Iowa Feeder Pig Dealer Charged With Fraud (11/93, p. 67)
North Carolina Proposal Threatens Expansion (6/93, p. 39)
Three Figures Needed On Every Carcass (4/93, p. 24)
What Clinton, Espy Have In Store For Agriculture (10/93, p. 16)

REPRODUCTION

AI Procedures On Video (9/93, p. 20)
AI: This Time It's Here To Stay (6/93, p. 26)
AI: A Matter Of Savings, Not Costs (7/93, p. 20)
Backfat: How Low Can You Go? (1/93, p. 64)
Be Careful With Stress Gene (11/93, p. 8)
Cost Of Boar Rental (12/93, p. 54)
DNA Stress Test (11/93, p. 26)
DVM Questions Double-Mating Edge (2/94, p. 45)
Early Weaning Strategies Make Sow Productivity Soar (7/93, p. 18)
Explaining Terminal, Maternal Lines (3/93, p. 44)

Feeding Prolific Sows (9/93, p. 30)
Feeding After Breeding Vs. Embryo Survival (2/93, p. 65)
Feeding High Copper Doesn't Hurt Sow Output (5/94, p. 54)
First Sows Bred For National Genetic Test (1/93, p. 57)
Forming A Lean Gain Strategy? (3/93, p. 42)
Gene-Mapping Promises Performance Jumps (5/93, p. 38)
Genetics Choices (Spring '93 BP, p. 24)
How To Value Leased Breeding Stock (5/93, p. 69)
Ideal Protein No Help In Lactation (5/93, p. 55)
Identifying The Ideal Truckload (7/93, p. 32)
Improving Your Odds Of Success With AI (8/93, p. 44)
Insulators Ensure Genes Turn On, Off (10/93, p. 42)
Managing European Genetic Lines (2/93, p. 44)
Mating Frequency More Important Than Timing (12/93, p. 46)
Measuring High-Lean-Gain Genotype Advantages (1/93, p. 21)
Percent Lean Formula Published (11/93, p. 11)
New AI Video Available (6/93, p. 32)
Oxytocin May Speed Sperm Transport (8/93, p. 46)
Partial Litters Turn Into Runts (12/93, p. 52)
Pooled Selling Starts With Coordinated Genetics (6/93, p. 42)
PRRS Virus Common, Boars Can Spread It (12/93, p. 48)
Push Seedstock Suppliers To Join Genetic Test (4/93, p. 22)
Riboflavin-Rich Diets Raise Farrowing Rate (7/93, p. 46)
Rotational Crossing Needs To End! (5/93, p. 22)
Semen Of Infected Boars Can Carry PRRS (8/93, p. 49)
Simple Steps To Success With AI (9/93, p. 48)
Stepping Stones Solve Slick Breeding-Floor Problem (9/93, p. 28)
Stress-Free Hogs For Sale (11/93, p. 31)
Stress-Gene Report (11/93, p. 22)
Take The Next Step To Upgrade Genetics (5/93, p. 18)
Training Boars For AI (9/93, p. 17)
U.S. Genetic Suppliers Join National Sire Test Roster (8/93, p. 16)
What Do You Need To Get Started With A.I.? (7/93, p. 24)

SEEDSTOCK

Boar Data Popular In New NBS Class (10/93, p. 55)
DNA Stress Test (11/93, p. 26)
New U.S. Genetic Suppliers Join National Sire Test (8/93, p. 16)
Stress-Free Hogs For Sale (11/93, p. 31)
Stress-Gene Report (11/93, p. 22)

WASTE

A Finishing Building For Warm Climates (8/93, p. 61)
Administration Proposes New Wetland Rules (9/93, p. 54)
An Alternative To Copper Sulfate (2/93, p. 65)
Battle Zone (3/93, p. 10)
Chimney Sweeps Out Gases (6/93, p. 34)
Constructed Wetlands (9/93, p. 50)
Dead Pig Composting: Turning A Problem Into An Asset (5/93, p. 40)
Do Zoning Laws Help Or Hinder? (3/93, p. 20)
Establish A Good Dunging Pattern In Weaned Pigs (7/93, p. 30)
Hog Manure Is Not Just A Waste Product (9/93, p. 40)
How Do You Remodel For Manure Removal? (11/93, p. 43)
Lagoon Liquid's Value After Irrigation (2/93, p. 65)
No-Frills Finisher Adapted To The Midwest (10/93, p. 20)
North Carolina Proposal Threatens Expansion (6/93, p. 39)
Odor Control Becomes Top Industry Priority (9/93, p. 54)
Odor: Can Additives Really Cut It? (4/93, p. 42)
Pit Recharge Keeps Gas Levels Low (12/93, p. 17)
Pork Production/The Environment: Concerns, Solutions (9/93, p. 40)
Pump Pits Safely (3/94, p. 46)
Reclaim 'Farmer' Title, Then Get Organized (3/93, p. 25)
Something Old, Something New (11/93, p. 52)
The Growing Pollution Problem. (11/93, p. 38)
Tougher Controls Coming On Hog Manure (4/93, p. 47)

WELFARE

Dealing Away Problem 'Downers' (2/93, p. 50)
Handle With Care (11/93, p. 58)
Plan For Activist Visits (10/93, p. 48)
Who's Dropping Out Of The Industry? (7/93, p. 6)

BP= Blueprint For Top Managers series

Is Your Feed Batching System
A STEP BEHIND?
Traditional Three Step Phase Feeding
Automatic Phase Feeding
...the E-Z WEIGH!
Automatically changes rations to supply nutrients at the right time for maximum growth performance.
Feeding Plan Using E-Z Weigh II
Minimizes feed waste and lost growth potential.
While weighing, mixing and distributing feed, the EZ Weigh II will keep computerized records for cost analysis and performance planning.
We've Made Phase Feeding EZ. Call for FREE Demo Diskette.
E-Z SWITCH™
a Level Switch You Can Trust.
• Automatically shuts down augers, conveyors, legs.
• Use as ON/OFF switch, safety or time delay switch.
